Jeff,  
Your extension request is approved. The new due date will be January 3, 2013. In the mean time, could you send me a table and map showing the subject concentrations and areas, as well as the additional sampling locations? Thanks.

Ginny,  
I mistakenly sent you the previous email with a non-applicable attachment. I have attempted to recall the message. In the event that you get the email. Please disregard the attachment. Please see email below.  
I apologize for the confusion.  
Jeff

**Subject:** Request for Extension for the Soil Investigation Report - INVISTA North Terminal - PX Facility

Ginny,  
Hope you are doing well. As you know, we conducted our soil sampling event at the PX Facility within the INVISTA North Terminal in August. We have received and reviewed the laboratory data for these samples. The laboratory results indicate 3 locations in which additional sampling is needed. We are collecting the additional samples per the last paragraph of Section 3.2 of the Revised Soil Investigation Plan today. Since this additional sampling is needed, we would like to request a 90 day extension for submittal of the applicable report. Per my records, the report was due on October 5, 2012 so a 90 day extension would make it January 3, 2013. Please let us know if you are OK with this new due date.

If you should have any questions or comments, please feel free to contact us at 910-452-5861.

Thanks,
